

Salah Eldin Ahmed

Full-stack Web Developer

+201228075681 · salahlala303@gmail.com · [LinkedIn](#) · [GitHub](#) · Egypt

SUMMARY

Full-stack Web Developer experienced in building scalable, user-focused web applications using modern frameworks and best practices. Strong background in front-end and back-end development, system architecture, REST APIs, and responsive design, with a passion for clean code, performance, and collaboration.

TECHNICAL SKILLS

- **Front-End Development:**
 - HTML, CSS, JavaScript, TypeScript
 - Bootstrap, Tailwind CSS
 - React.js, Next.js, Redux Toolkit
- **Back-end Development:**
 - Node.js, Express.js
 - RESTful API & GraphQL fundamentals
 - MongoDB, Mongoose
 - PostgreSQL, Prisma ORM
 - Authentication & Authorization
- **Other Technical Skills:**
 - Git, GitHub (Version Control)
 - Object-Oriented Programming (JavaScript)
 - Data Structures & Algorithm
 - Clean Code

EDUCATION

Bachelor of Nursing Science — Faculty of Nursing Zagazig (2027)

PROJECTS:

Full-Stack Social Media Web App

Built using MERN stack (MongoDB, Express.js, React.js, Node.js)

- **Authentication System:** Secure user login and registration with JWT (JSON Web Token) and refresh token mechanisms for maintaining session integrity and security.
- **Real-Time CRUD Operations:** Create, read, update, and delete posts with instant updates.
- **Interactive Features:** Real-time interactions for likes and comments on posts.
- **Follow/Unfollow Users:** Manage social connections with real-time updates.

- **Real-Time** Messaging and Notifications

Full-Stack Learning Management System (LMS)

Built using MERN stack (MongoDB, Express.js, React.js/Next.js, Node.js)

- **Authentication & Security:** JWT with refresh tokens for secure sessions.
- **Course & Lesson Management:** Full CRUD for courses, chapters, and lessons.
- **Enrollment & Payments:** Stripe integration for secure course purchases.
- **Progress Tracking & Certificates:** Personalized progress tracking and auto-generated Cloudinary-hosted certificates.
- **Interactive Features:** Ratings, reviews, dashboards, and analytics for learners and instructors.

Sakinah Streams – Quran Web Application

Built using Next.js, Prisma, and PostgreSQL

- **Seamless Quran Reading:** Browse and read Surahs and Ayahs in a clean, distraction-free interface optimized for readability.
- **Audio Streaming:** Integrated high-quality Quran recitations with smooth playback controls.
- **Responsive UI/UX:** Fully responsive design across devices for easy navigation.
- **Khatma Planner:** Allows users to organize and track their Quran reading progress.
- **High Performance:** Utilized SSR and SSG with Next.js for fast and reliable content delivery from external APIs.
- **Authentication System:** User login and account management for personalized experience.
- **Progressive Web App (PWA) & Notifications:** Implementing installable app experience and reminder notifications for reading and Khatma tracking.

E-commerce Website

Built using React.js

- **Responsive Design:** Developed a responsive and user-friendly layout
- **Product Listings:** Display products with dynamic and interactive interfaces.
- **Shopping Cart:** Implemented cart functionality
- **Search and Filtering:** Enabled search and filter options for products.
